

11. Screw Calculator (for Hardwood Decking screwing through face)

Volume metres (mtrs) / joist centre x 2 = number of screws

Standard joist centres 450mm (about 18")

i.e. 100 metres of decking would be 100 / 0.450 x 2 = 445 screws

12. Extreme Clips (for Ipe Hardwood Decking)

Coverage per box as follows;-

145mm wide board 450mm centres = 11m²

145mm wide board 400mm centres = 9.75m²

90mm wide board 450mm centres = 7m²

90mm wide board 400mm centres = 6.25m²

13. Fencing Guide

we recommend 1.5metre centres on the posts
